

## IMPROVING SEND SERVICES IN SOMERSET

# HOW TO GET INVOLVED

## SURVEYS

Surveys are a good way you can share your experiences at a time that suits you. Below are the details of surveys that are currently open. You don't need to do it all in one go as both surveys allow you to come back later and complete it at another time.

### **360 Survey for Special Educational Needs and/or Disabilities**

This survey is a yearly survey for children and young people with SEND, their parents and staff working with them. We used the responses from the last survey to help design the plan to improve services. This survey will help us to see how the plan is working and if we are on the right course or need to make changes.

### **Learning Disabilities and Autism Consultation**

Discovery's Community Fund supports local charities, community groups and social enterprises, to provide opportunities to support people with learning disabilities and/or autism living in Somerset. They want to hear from local people about the support they value and want to see available. The consultation is for people aged 14 or above.

The results will help shape how the funding is used in the future.

## LISTENING EVENTS

Listening events provide a space where parents and staff come together to review areas of SEND provision and how they are working for them.

We are currently running events online using microsoft teams due to Covid restrictions.

You will need to book on and the links can be found on the forums website.

### **Core Standards 29th June 10-11 or 6-7**

The Core Standards set out what should be available for children and young people with SEND in an education setting.

The team that are reviewing the documents are keen to meet with parents and staff to get their views on the current ones.

They also want to know what needs to be changed and could make them better in the future.

### **Somerset's Local Offer 14th July 10-11 or 6-7**

Somerset's Local Offer has recently been reviewed and this session will share the results of the review.

The team want to get your views on the findings and hear about your experience of using the site.

There will also be time to discuss any ideas of how the site can better meet your needs.
