**Headteacher: Mrs. M. Weatherburn**

25 November 2020

Dear Parents/Carers

### **Advice for Child to Self-Isolate for 14 Days**

We have been made aware that we have a confirmed positive case of coronavirus (COVID-19) at Hamp Nursery & Infants School.

We have followed the national guidance and have identified that your child has been in close contact with the affected child. In line with the national guidance your child must stay at home and self-isolate until **7<sup>th</sup> December**. Your child may return to school on **8<sup>th</sup> December**. Your child must not leave the house during this period. They must not accompany you when you are bringing any siblings to/from school.

If your child is well at the end of the 14 day period of self-isolation, they can return to their usual activities.

Hopefully you will remember that we recently sent home a pack of resources to support you and your child with home learning. Please also refer to the planning in Class 1's folder on our website [www.hampnurseryandinfantschool.co.uk](http://www.hampnurseryandinfantschool.co.uk). As promised we will also provide your child with an exercise book and pencil. If you have another child at our nursery, at school here or at Hamp Academy, we will pass these to you as you collect your other children. If you do not, we would ask you to arrange collection between the hours of 10am and 2pm. As your isolating child cannot leave the house we realise that this may be difficult for some of you and we can therefore give them to a friend or neighbour to drop off on your doorstep as long as you let us know who this will be in advance. Please telephone the school office if you cannot arrange collection and we will see what we can do to help.

Other members of your household can continue normal activities provided your child does not develop symptoms within the 14 day self-isolation period.

Please see the link to: Guidance for contacts of people with confirmed coronavirus (COVID-19) infection who do not live with the person

<https://www.gov.uk/government/publications/guidance-for-contacts-of-people-with-possible-or-confirmed-coronavirus-covid-19-infection-who-do-not-live-with-the-person>

### **What to do if your child develops symptoms of COVID 19**

If your child develops symptoms of COVID-19, they should remain at home for at least 10 days from the date when their symptoms appeared. Anyone with symptoms will be eligible for testing and this can be arranged via <https://www.nhs.uk/ask-for-a-coronavirus-test> or by calling 119 .

People who do not have symptoms should not request a test unless this has been specifically requested by Public Health England or the local authority.

All other household members who remain well must stay at home and not leave the house for 14 days. This includes anyone in your 'Support Bubble'.

The 14-day period starts from the day when the first person in the house became ill.

Household members should not go to work, school or public areas and exercise should be taken within the home. If you require help with buying groceries, other shopping or picking up medication, or walking a dog, you should ask friends or family. Alternatively, you can order your shopping online and medication by phone or online.

Household members staying at home for 14 days will greatly reduce the overall amount of infection the household could pass on to others in the community

If you are able can, move any vulnerable individuals (such as the elderly and those with underlying health conditions) out of your home, to stay with friends or family for the duration of the home isolation period

Please see the link to the PHE 'Stay at Home' Guidance:

<https://www.gov.uk/government/publications/covid-19-stay-at-home-guidance/stay-at-home-guidance-for-households-with-possible-coronavirus-covid-19-infection>

### **Symptoms of COVID 19**

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell (anosmia)

### **For most people, coronavirus (COVID-19) will be a mild illness.**

If your child does develop symptoms, you can seek advice from the nhs.uk website at <https://www.nhs.uk/conditions/coronavirus-covid-19/check-if-you-have-coronavirus-symptoms/>. If you are concerned about your child's symptoms, or they are worsening you can seek advice from NHS 111 at <https://111.nhs.uk/> or by phoning 111.

### **How to stop COVID-19 spreading**

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

#### *Do*

- wash your hands with soap and water often – do this for at least 20 seconds
- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

### **Further Information**

Further information is available at
